Stine 9808E-20 brand corn features two modes of action for above-ground insect control. The line performs in variable soil types, responds to higher management practices and works well in all row widths. It features excellent roots and stalks for strong standability and has very good disease protection. For optimum performance, make sure the soil temperature is on the warming trend.

- Above-ground insect protection
- Proven high-yield potential on highly productive soils
- Performs best at higher planting populations
- Also available with nematicide seed treatment 9808E-20N
