

CORN PRODUCT DATA

STINE® **NEW** MX481-G BRAND

Stine MX481-G brand corn has shown outstanding, stable yield performance potential and is designed to perform best at increased planting populations. These new, proven Stine genetics have consistently performed at over 110% (110.6%) in 3 years of Elite Yield Trials testing, with a 5.7% advantage over competitive products. This is an excellent, widely adapted choice for all row widths with very good root and stalk strength, stress tolerance, and medium-tall plant height and semi-fixed ear placement that help optimize yield in higher planting populations.

Relative Maturity Range		97 - 99
Harvest Population		GDU
Wide Row 108%	Narrow Row 112%	2430
Glyphosate Tolerant		Glufosinate Tolerant
Yes		No

DISEASE RESISTANCE

Gray Leaf Spot	7	Goss' Wilt	7
Southern Leaf Blight	8	Anthracnose	-
Northern Leaf Blight	8	Common Rust	7
Eye Spot	7
