*EXCLUSIVE LINE FOR 2026* Stine 13EG23 brand is a moderately short to medium, high-yielding soybean that is a great choice for wide-row, low-population management strategies. 13EG23 is a showy plant type that will bush out. It works well on heavy or marginal-type ground with a high-yield expectation, but for best results, keep 13EG23 off high-salt soils prone to iron deficiency chlorosis and apply treatment if SDS is a concern.
