

SOYBEAN PRODUCT DATA

STINE® 22EG02 BRAND

Stine 22EG02 brand is one of the easiest combining soybeans in the lineup. 22EG02 has good season-long plant health and has great lateral branch movement to close canopies quickly. When searching for a consistently high-yielding line that performs on well-drained, sandier soils, look to 22EG02 to deliver. For best results in high-yield environments, plant in wide rows and let 22EG02 bush out, and get as many branches, pods, and nodes as possible.
