## STINE<sup>®</sup> 35R92 BRAND

<b>Maturity</b>	<b>35</b>
<b>SCN Resistant</b>	<b>Brown Stem Rot Susceptible</b>
<b>Rps Gene 1c</b>	<b>Height Medium</b>

Stine 35R92 brand is a conventional line with big yield potential. It features Rps1c Phytophthora root rot resistance to help with performance in poorly drained soils. It really excels in high-yielding environments when planted at lower populations, which allow the plant to bush out and add lots of lateral branches and pods. 35R92 is also STS tolerant, providing another soybean herbicide option.
