

SOYBEAN PRODUCT DATA

STINE[®] 48EE20 BRAND

Although not as branchy or showy as other Enlist E3 soybeans, Stine 48EE20 brand is an excellent choice for top-end yields. These genetics work across multiple soil types, with the tendency to put a good pod cluster on top with heavy podding on the main stem. 48EE20 has good tolerance against *Phytophthora* root rot and other early-season diseases.
