## STINE® 28EH32 BRAND

Stine 28EH32 brand is a solid choice as a defensive-style soybean with a good trait and tolerance balance. Planting it in narrow-row, high-population strategies is optimal across soil types. 28EH32 is a medium-statured line that exhibits very good standability, good performance against sudden death syndrome and Sclerotinia white mold, and STS tolerance. For best results, plant 28EH32 early.
