36EH32 *BRAND*

Enlist E3® SOYBEANS

Stine 36EH32 brand is one to watch in this maturity. It continues to set the standard for yield performance among mid-group 3 soybeans. 36EH32 is a sister to 37GE23 and 38EG32, which are both related to the famous 28M32 conventional line, giving it very high-yield potential. 36EH32 has strong tolerance to sudden death syndrome and Sclerotinia white mold, allowing for early planting in limited conditions. Plant it in narrow-row, high-population environments across soil types and see what this lineage can do for you.
