STINE® 43EG29 BRAND

Stine 43EG29 brand delivers yield, standability and sudden death syndrome protection. It has consistently shown some of the highest yield potential among all lines in the early group 4 lineup. 43EG29 is a great double-crop option for those looking for versatility. For best results, plant it in wider rows, allow the crop to bush out, and watch it make a whole bunch of lateral branches and pods to drive yield. 43EG29 is also STS tolerant.
