SOYBEAN PRODUCT DATA

STINE® NEW 44EK12 BRAND

Enlist E3 SOYBEANS

Stine 44EK12 brand offers a solid pairing of yield and tolerances, making it a broadly adaptive line in the 4.4 maturity. Yield on productive and marginal ground has been proven with 106.6% of yield trend in Stine's Elite Yield Trials, and 44EK12 shows good tolerance to sudden death syndrome, stem canker and frogeye leaf spot. It also has the critical salt excluder gene, enabling planting in high-pH soils. For best results, plant it at moderate populations in 20-inch or wider row strategies.
